Meeting ID: 95617197636

Passcode: 924293

Educational objectives:

1. Trace the evolution of research ethics from the Nuremberg Code to modern data-driven studies.
2. Highlight key historical cases that shaped current IRB frameworks.
3. Discuss ethical challenges in AI, genomics, and large-scale EHR research.
4. Examine privacy, consent, and governance in the era of algorithmic medicine.

Disclosure Statement: The faculty and planners have no relevant financial relationship with ineligible companies, whose primary business is producing, marketing, selling, reselling, or distributing health care products used by or on patients.

Continuing Medical Education Credits: The School of Medicine, State University of New York at Stony Brook, is accredited by the Accreditation Council for Continuing Medical Education to provide continuing medical education for physicians. The School of Medicine, State University of New York at Stony Brook designates this live activity for a maximum of **1 AMA PRA Category 1 Credits™**. Physicians should only claim credit commensurate with the extent of their participation in the activity.
