

Biomedical Informatics Grand Rounds

Analytics at the dawn of the generative artificial intelligence age

Dr. Janos Hajagos, Ph.D

*Chief Data Analytics and Research Assistant
Professor, Biomedical Informatics,
Stony Brook University*

**Wednesday, Sept. 16th, 2026
3:00 pm - 4:00 pm**

Remote Access

Meeting ID: 95617197636

Passcode: 924293

Educational objectives:

1. Explain how generative AI can write data-analysis code from natural-language prompts
2. Describe how virtual computational laboratories can be built to explore clinical questions
3. Identify the key challenges of applying AI models to protected healthcare data

Disclosure Statement: The faculty and planners have no relevant financial relationship with ineligible companies, whose primary business is producing, marketing, selling, reselling, or distributing health care products used by or on patients.

Continuing Medical Education Credits: The School of Medicine, State University of New York at Stony Brook, is accredited by the Accreditation Council for Continuing Medical Education to provide continuing medical education for physicians. The School of Medicine, State University of New York at Stony Brook designates this live activity for a maximum of **1 AMA PRA Category 1 Credits™**. Physicians should only claim credit commensurate with the extent of their participation in the activity.
