

Biomedical Informatics Bootcamp

Unlocking Career Opportunities in Healthcare
through Proficiency in Python Programming, Data Analytics, and Machine Learning

Presented by Stony Brook University Department of Biomedical Informatics

Python Programming: Feb. 5 – Feb. 15 (6-8PM)

Mondays and Thursdays

Biomedical Data Analytics and Machine Learning:

Feb. 19 - Feb. 29 (6-8PM) Mondays and Thursdays

New Computer Science Building - Mondays (Lecture Room 120) - Thursdays (Lecture Room 220)

Lectures, tutorials and hands-on experience

Join us for an exclusive spring semester Biomedical Informatics Bootcamp! Discover essential programming, data analytics, and machine learning skills crucial for biomedical informatics. Learn from professionals, gain hands-on experience, and discover diverse career opportunities, including advanced studies at the graduate level. Don't miss this chance to excel in healthcare data analytics and shape the future of the industry! Register now and unlock your potential in modern data analytics at the intersection of engineering and medicine!

FOR STONY BROOK UNIVERSITY
UNDERGRADUATE STUDENTS ONLY
