

# Biomedical Informatics Bootcamp

Unlocking Career Opportunities in Healthcare  
through Proficiency in Programming, Data Analytics, and Machine Learning

*Presented by Stony Brook University Department of Biomedical Informatics*

**August 29 –September 1, 6PM - 9PM (every day)**

**Python Programming**

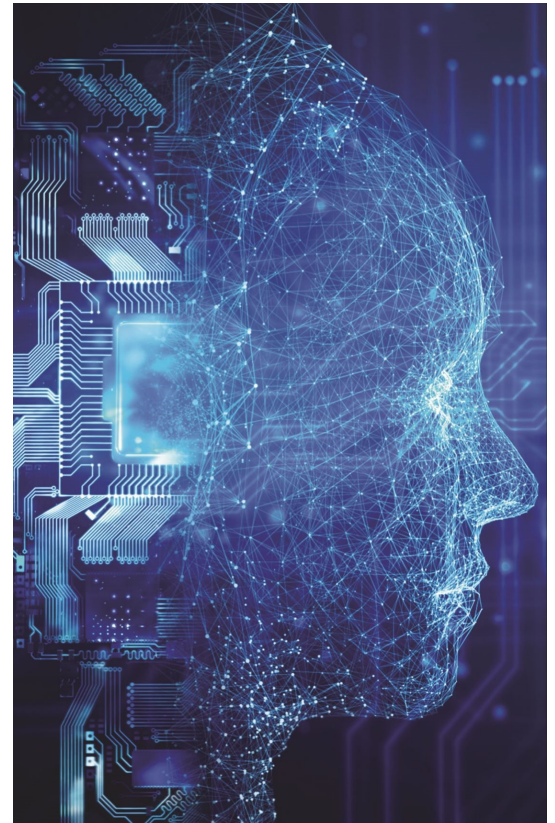

**September 5-8, 6PM - 9PM (every day)**

**Biomedical Data Analytics and Machine Learning**

**Student Activities Center**

**Lectures, tutorials and hands-on experiences!**

Join us for an exclusive two-part Fall semester Biomedical Informatics Bootcamp! Discover the essential programming, data analytics, and machine learning skills crucial for biomedical informatics. Learn from experts, gain hands-on experience, and explore diverse career opportunities, including graduate studies. Don't miss this chance to excel in healthcare data analytics and shape the future of the industry! Limited seats available – register now and unlock your potential in modern data analytics!
