

Biomedical Informatics Programming Bootcamp

Unlocking Career Opportunities in Healthcare
through Proficiency in Python Programming, Data Analytics, and Machine Learning

Presented by Stony Brook University Department of Biomedical Informatics

Python Programming: Jan. 27 – Feb. 10, 2025

Mondays and Wednesdays: 6:30 - 8:30pm

Biomedical Data Analysis and Machine Learning: Feb. 12

- Feb. 24, 2024 - Mondays and Wednesdays:

6:30-8:30pm

Special Topics: Bioinformatics and Natural Language

Processing: Feb. 26, March 3 and March 5, 2025: 6:30-8:30PM

All sessions will be held in New Computer Science Building - Lecture Room 120

Lectures, Tutorials and hands-on experiences!

Join us for an exclusive fall semester Biomedical Informatics Bootcamp! Discover essential programming, data analytics, and machine learning skills crucial for biomedical informatics. Special topics such as Bioinformatics and NLP will be briefly covered. Gain hands-on programming experience, and discover diverse career opportunities for biomedical informatics. Don't miss this chance to excel in healthcare data analytics and shape the future of the industry!
